

Google Workspace是公司在使用的一个办公套件，里面有许多丰富的内容设置，作为一个GWS的管理员，需要掌握各类情况下，最合适的工具和它们的使用方法。与其一点点去啃官方的Learn Path的学习材料，不如直接看GWS的题库，从题库中给出的案例总结出最佳实践。

## 多选题

Q1. Your marketing department needs an easy way for users to share items more appropriately. They want to easily link-share Drive files within the marketing department, without sharing them with your entire company. What should you do to full fill this request? (Choose two.) A. Create a shared drive that's shared internally organization-wide. B. Update Drive sharing for the marketing department to restrict to internal. **C. Create a shared drive for internal marketing use.** D. Update the link sharing default to the marketing team when creating a document. **E. In the admin panel Drive settings, create a target audience that has all of marketing as members.**

A选项显然是超范围共享，B只是Internal,但没有限定在市场部内,C是对的,D的话显然太费事,E是符合要求的。

1. As the Workspace Administrator, you have been asked to configure Google Cloud Directory Sync (GCDS) in order to manage Google Group memberships from an internal **LDAP** server. However, multiple Google Groups must have their memberships managed manually. When you run the GCDS sync, you notice that these manually managed groups are being deleted.

What should you do to prevent these groups from being deleted?

对于已经在GWS中手动创建的Group，仍要继续保留 In the GCDS configuration manager, update the group deletion policy setting to "don't delete Google groups not found in LDAP."
